DATE MAILED: 06/23/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/676,294	Applicant(s) GOLZARIAN ET AL.	
	Examiner Thanh V. Pham	Art Unit 2823	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 May 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-26 is/are pending in the application.
- 4a) Of the above claim(s) 15-26 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 2,6,7 and 10-14 is/are allowed.
- 6) ☒ Claim(s) 1, 3-5 and 8-9 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 3-5 and 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Akagawa US 6,121,688.

Re claim 1, the Akagawa reference discloses a method comprising:

forming a first conductive material 38 in an opening (col. 4, lines 7-8) through a dielectric 34 to a contact point 36;

forming a second conductive material 40 on the first conductive material 38; and

wherein the first conductive material comprises a unidirectional electrical conductivity and the unidirectional conductivity is configured to be in a direction corresponding to a projection to or from the contact point and the second conductive material (col. 4, lines 11-17).

Re claim 3, the contact point is a contact point to a circuit device (col. 4, lines 6, 9-11), and wherein forming a forming a first conductive material includes forming in a via of the dielectric to contact the circuit device, figs. 1-2.

Re claim 4, the method further comprising forming an interconnect structure in the opening 44 on the second conductive material 40.

Re claim 5, the method further comprising: forming a third conductive material on an exposed portion of the interconnect structure, wherein the third conductive material comprises a unidirectional electrical conductivity in a direction normal to the exposed portion of the interconnect structure, figs. 7-8.

Re claim 8, the second conductive material is formed by a sputtering method (col. 4, line 29).

Re claim 9, the first conductive material comprises copper (col. 4, line 28).

Allowable Subject Matter

3. Claims 2, 6-7 and 10-14 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: the cited prior art, individually or in combination, does not disclose or suggest all of the claimed elements in the present application wherein the first conductive material comprising a unidirectional electrical conductivity is formed over by a seed material in a via that leaves the first conductive material overlying the contact point or the surface of the formed interconnect structure is modified by a stripping agent, planarization, polishing or doping with a dopant or this first conductive material could be CMP or doped in the context of claim 1.

Response to Arguments

5. Applicant's arguments filed 05/27/2005 have been fully considered but they are not persuasive.

6. Applicant argues that the Akagawa reference does not teach “a conductive material comprising a unidirectional electrical conductivity configured to be in a direction corresponding to a projection to or from a contact point in a second conductive material as required by claim 1”. Applicant is directed to col. 4, lines 13-17 wherein “the anisotropic conductive sheet 38 is formed of a resin containing a conductive filler 39 (FIG. 2) such as a metallic powder, and by the application of pressure, becomes conductive in the pressed direction due to the continuity of the conductive filler 39”. The above quoted passage is the same as “unidirectional electronic conductive material 115 is mechanically stretched or stressed to orient the directionality of conductivity of the film “ in the instant specification’s p. 7, lines 4-6 and the limitation as claimed in claim 1.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh V. Pham whose telephone number is 571-272-1866. The examiner can normally be reached on M-T (6:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on 571-272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
